

CURRICULUM VITAE

NAME: STELLA APOSTOLAKI, PhD

NATIONALITY: Hellenic (Greek)

CORRESPONDENCE

ADDRESS: Deree-The American College of Greece 6 Gravias Street GR-153 42 Aghia Paraskevi, Athens, Greece

Phone number: ++210 6009800, ext. 1464

E-mails: sapostolaki@acg.edu

RESEARCH INTERESTS

Chair of the Academic Advisory Board of the Centre of Excellence in Sustainability at The American College of Greece (ACG), Assistant Professor and Coordinator of the Environmental Studies Program, Department of Science and Mathematics, Deree - the American College of Greece. She is teaching a variety of environmentally focused courses in the respective Program and in the Honours Program at Deree – ACG. She has prepared and delivered lectures, seminars and environmental awareness raising programs addressed to different audiences, including all educational levels and the wider public. She holds a BSc/(Hons) in Environmental Science, an MSc in Urban Water and Environmental Management and a PhD on sustainable urban drainage systems and river management options, obtained from the University of Abertay Dundee, Scotland – U.K, under funding received by the Environment Agency for England & Wales, in collaboration with the Scottish Environment Protection Agency (SEPA), and by HR Wallingford Consultants.

Wide research experience, she is expert evaluator of Call for Proposals for European Commission, has worked as a researcher in collaboration with Universities and Authorities in Greece and in the U.K., and has participated in numerous EU funded projects. She collaborates as external consultant with several entities such as the Green Fund of the Hellenic Ministry of Environment and Energy in the project LIFE-IP AdaptInGR – Boosting the implementation of adaptation policy across Greece, the ATHENA Research Centre, the UNSDSN Greece & Climate KIC Greece, the International Centre for Research on the Environment and the Economy (Icre8), P.S.G Environmental Geo-Exploration Ltd. She is also an Expert under the Body of Knowledge of EIT Climate KIC & Food on Water Scarcity in Southern Europe. Her main research interests are on integrated water management and innovation, sustainable development, sustainable stormwater management, climate change, conservation of biodiversity, ecosystem restoration, public awareness - stakeholder engagement methods and public education, green urban planning with emphasis on amenity and biodiversity and on the implementation of the United Nations Sustainable Development Goals.

Furthermore, research focuses on experimental methods for mapping and analysis of environmental parameter, on planning, mitigation and adaptation measures, environmental management, use of sustainability indicators, with emphasis on the SDGs and other sets of indicators.

EDUCATIONAL QUALIFICATIONS

Obtained 2007 : PhD on “*Social Impacts of Stormwater Management Practices including Sustainable Urban Drainage Systems and River Management*”, Urban Water Technology Centre, Abertay University, Dundee - Scotland

Co-funded by, a) by the Environment Agency of England & Wales, in collaboration with SEPA (Scottish Environment Protection Agency, and, b) HR Wallingford Consultants as part of the DTI II Project ‘Economic incentives, social impacts and ecological benefits of sustainable drainage systems (SUDS)’- DEFRA (Department for Environment, Food and Rural Affairs - U.K.)

Obtained: 2001 MSc on Urban Water and Environmental Management, Abertay University, Dundee - Scotland
Under ESF Scholarship

MSc Dissertation Title: Public Perception of Sustainable Urban Drainage Systems within two locations in Scotland.

MSc Modules Attended: Environmental Policy & Regulation, Urban Drainage Systems, Environmental Quality, Solid Waste Management, Environmental Systems, Environmental Management, Project Management

Obtained 1999: **BSc (Hons) on Environmental Science (2.1), Abertay University, Dundee - Scotland**

Honours' Year Dissertation Title: Wastewater Treatment Plants - Effluent Reuse. Comparative study between Scotland and Greece

EMPLOYMENT HISTORY

01/2014 – Today **DEREE - THE AMERICAN COLLEGE OF GREECE (ACG)**

- **01/09/2021 – Ongoing ASSISTANT PROFESSOR of Environmental Science in the Environmental Studies Program, Department of Science and Mathematics, ACG**
- **01/09/2020 – Ongoing**
 - **Environmental Studies Program Coordinator, Department of Science and Mathematics, ACG**
 - **CHAIR of the Academic Advisory Board, ACG Center of Excellence for Sustainability**
- **01/09/2020 – 31/08/2021 ASSOCIATE FACULTY – LECTURER I in the Environmental Studies Program, Department of Science and Mathematics, ACG**
- **01/2014 – 31/08/2020 ADJUNCT PROFESSOR in the Environmental Studies Program, Department of Science and Mathematics**

Teaching Modules:

- ES4126: Conservation of Wildlife and Mediterranean Ecosystems.
- ES4423: Water Resources.
- ES1000: Ecosystems and Biodiversity.
- ES1010: Energy Resources and Pollution.
- ES1005: Contemporary Environmental issues.
- HNS2285: Greening the Campus (Honors Course) – Water management; Ecosystems and Biodiversity; Implementing the 17 Sustainable Development Goals (SDGs)
- BI1007: Environmental Health

12/2011 – Today **INDEPENDENT SCHOLAR – RESEARCHER**

- **13/10/2021 – 10/01/2022 EXPERT CONTRACT with European Commission Research Executive Agency (EC REA/C/04) on Evaluation of Proposals submitted in response to Call for Proposals: HORIZON-CL6-2021-ZEROPOLLUTION-01**
- **01/02/2021 – 22/04/2021 EXPERT CONTRACT with European Commission Research Executive Agency (EC REA/C/04) on Evaluation of Proposals submitted in response to Call for Proposals: H2020-LC-GD-2020-4**
- **10/2020 – Ongoing Collaboration – short contracts.** External expert collaborating with **Green Fund - The Ministry of Environment & Energy**, in the project **LIFE-IP AdaptInGR** - Boosting the implementation of adaptation policy across Greece.
- **01/05/2021 – 15/12/2021.** Body of Knowledge (Expert Body) **EIT Knowledge and Innovation Communities (KICs)** - Preparation of a White Paper on Water Scarcity in Southern Europe
- **12/2020 – 12/2021.** External expert collaborating with **P.S.G ENVIRONMENTAL GEO-EXPLORATION LTD and Meton Inc.** in the project 'Development of Action Plan in support of the

Application of the protected areas of Cephalonia and Ithaca for inclusion in the **Europarc** list of the **European Charter of Sustainable Tourism – E.C.S.T.**

- **09/2019 – 09/2020** with the **Open University of Cyprus**
 - Supervising Master Thesis at the, MSc in Sustainable Energy Systems. Thesis focus on renewable energy systems and energy efficiency.
 - Preparation of educational material for the revised MSc in Sustainable Energy Systems.
- **05/2018 – 04/2021.** Senior researcher at the **International Center for the Research on the Environment and Economy (Icre8) / ATHENA Research Center/ UNSDSN-Greece / Climate-KIC Greece.** Indicative research program:
 - Co-design exhibits and material for the **GAIA Climate Change Exhibition, Goulandris Natural History Museum of Athens**
 - **SySMA4Transition** - System Mapping as a Service for post-COVID Regional Transition (TCL 201498)
 - **Globaqua:** Managing the effects of multiple stressors on aquatic ecosystems with water scarcity
 - **InBlueSea:** Dissemination of the sustainable management of water resources towards achieving the goals of Agenda 2030 through innovation – Action in line with Climate KIC.
 - Development of **educational material** on environmental issues addressed to pre-school and primary school children for the **Goulandris Natural History Museum of Athens**, on Biodiversity, the World Oceans, and Climate Change.
 - Ongoing - Preparation of research proposals (E.U. and National funding frameworks).
- **10/2013 – 10/2015.** Participation in the Steering Group Committee for the **Lifelong Learning Programme Leonardo da Vinci: “Transfer of Innovation”, VocTEL (Vocational Technology Enhanced Learning)**
- **12/2013 – 7/2015.** **External expert** for the Municipality of Hersonissos within the framework of the MED Programme **E²STORMED “Improvement of energy efficiency in the water cycle by the use of innovative storm water management in smart Mediterranean cities”**. The programme involved the development and use of an innovative DST application for the assessment of energy use and cost in the water cycle as well as the evaluation of sustainable energy saving systems.

06/2012 – 10/2013 **INDEPENDENT POWER TRANSMISSION OPERATOR S.A.** in Greece
(**ADMIE S.A.**)

Assistant to the Chairman of the Board of Directors on environmental aspects and studies related to renewable energy sources.

Transmission New Projects Department. Participation in the implementation of the environmental works in Megalopoli, Greece and assessment of the environmental, geological and hydraulic conditions.

02/2009 – 12/2011 **AUA – EUROPE**

Employed as a Lecturer & Researcher.

- Teaching and tutoring position, in a number of modules: Hydraulics, Environmental Chemistry (I & II), Environmental Science issues (I & II), Ecology, Wastewater treatment processes, Sustainable urban drainage, Water Management and Sanitation in Developing Countries.
- Theses Supervision.
- Conduction of research proposals.

08/2004 – 04/2010

NATIONAL TECHNICAL UNIVERSITY OF ATHENS – SCHOOL OF CHEMICAL ENGINEERING

Employed as Researcher at the **Environmental & Energy Management Research Unit**, of the School of Chemical Engineering, NTUA, over a range of different projects mainly related to water management, strengthening and facilitating public and stakeholder involvement mechanisms, biodiversity issues and promotion of renewable energy sources: Activities include:

- Conduction of research proposals for EU funding
- Technical and Financial reporting & deliverables within the framework of the research programmes
- Preparation of scientific papers, presentations, speeches addressed to the scientific community and public audiences.

Emphasis is paid in the use of participatory management processes, stakeholder involvement processes and Sustainable Urban Drainage Systems (SUDS) implementation.

List of Research Programmes:

- **SWITCH** “Sustainable Water Management Improves Tomorrow's Cities' Health”, Integrated Project funded by EC FP6, Contract Number: 018530. (2006-2011)
- **XEROCHORE** “An Exercise to Assess Research Needs and Policy Choices in Areas of Drought” EC, DG Research, Contract Number: 211837. (2008-2010)
- **OPEN-GAIN** “Optimal Engineering Design for Dependable Water and Power Generation in Remote Areas Using Renewable Energies and Intelligent Automation” EC, DG Research, Contract Number: 032535. (2006-2009)
- **INECO** “Institutional and economic instruments for Sustainable Water Management in the Mediterranean Region”, INCO Programme, Contract Number: 517676. (2006-2009)
- **AquaStress**, “Mitigation of Water Stress through new Approaches to Integrating Management, Technical, Economic and Institutional Instruments”, Integrated Project funded by EC FP6, Priority 1.1.6.3 Global Change and Ecosystem, Contract Number: 511231. (2005-2008)
- **Nostrum DSS** “Network on Governance, Science and Technology for Sustainable Water Resource Management in the Mediterranean-The role of DSS tools”, Co-ordination Action funded by EC FP6, INCO-CT-2004-509158. (2004-2007)
- **PYTHAGORAS** “Development of a methodology for the estimation of water quality in a drinking water supply network with estimation of pollution environmental costs” EPEAEK, Ministry of Education. (2005-2006)
- **ProMot** “Promoting Efficient Motor Systems” EC, DG Research, Contract Number: 4.1031/2/02-048/2002. (2004-2006)
- **HEATCO** “Developing Harmonised European Approaches for Transport Costing and Project Assessment” EC, 6th Framework Programme FP6, Contract No: 2002-SSP-1/502481. (2004-2006)
- **ARID CLUSTER** “Strengthening complementarity and exploitation of results related RTD projects dealing with water resources use and management in arid and semi-arid regions” EC, DG Research, 5th Framework Programme, EESD Contract Number: EVK1-CT-2002-80018. (2003-2006)

Cluster Projects: **WaterStrategyMan** (Developing Strategies for Regulating and Managing Water Resources and Demand in Water Deficient Regions), **Medis** (Towards Sustainable Water Use on Mediterranean Islands: Addressing Conflicting Demands and Varying Hydrological, Social and Economic Conditions), **Aquadapt** (Strategic Tools to Support Adaptive, Integrated Water Resource Management under Changing Utilisation Conditions at Catchment Level: A Co-evolutionary Approach)

- **WaterStrategyMan** “Developing Strategies for Regulating and Managing Water Resources and Demand in Water Deficient Regions” EC, DG Research, 5th Framework Programme, EESD Contract Number: EVK1-CT-2001-00098. (2002-2005)

10/1999 – 07/2004 **ABERTAY UNIVERSITY, DUNDEE - SCOTLAND - URBAN WATER TECHNOLOGY CENTRE (UWTC)**

Employed as researcher over a range of different projects such as:

- Prototype research on SuDS
- Research on **Tempus Tacis Project** “Careers Development and Enhancing the Employability of Environmental Engineering Undergraduates”
- Lecturing;
- Consultation, design and implementation of Environmental awareness campaigns;
- Questionnaire design, piloting, application & analysis of questionnaires’ results using the programme Sphinx Questionnaire Package;
- Field work involving wastewater sampling (manual and automatic), Sewage Sampler installation and calibration;
- Wastewater chemical analysis, specifically: BOD, COD, NH₃, NO_x, Total-Suspended-Dissolved Solids.

1998 &1999 (summer jobs) **ETA - AKOYSTIKI LTD (Greece)**

Undertake noise measurements for traffic noise mapping and assist in acoustic and noise control installations’ studies. Particularly studies of Auditoriums, Theatres, Cinemas, Gymnasiums and any kind of noise proofing constructions requiring a high demand of acoustic excellence.

6/1997 - 10/1997 **TRADEMCO (Greece)**

Participate in a working team having the responsibility of noise measurements in the area of Spata (Attiki - Greece) for the study concerning the construction of the New International Airport of Athens, “Eleftherios Venizelos”. Technologically sophisticated equipment was facilitated, able to conduct measurements, and direct input of the results to a PC.

8/1996 - 4/1997 **HELLENIC MINISTRY FOR THE ENVIRONMENT, PHYSICAL PLANNING & PUBLIC WORKS**
Practical Exercise – Industrial placement

Water Laboratories department

- Chemical analysis of wastewater samples collected from the Wastewater Treatment Plant of Athens - Psytalia. (Analysis of BOD, COD, NH₃, NO_x, N₂, P_xO_x, solid wastes, oils, PhOH, VOC’s, PCB’s, soaps). Data were used for the conduction of the study of the Secondary phase of the Psytalia Wastewater Treatment Plant.

Laboratory for the control of Atmospheric Pollution and Noise

- Noise measurements on industrial, commercial and home industrial installations as well as traffic noise, especially caused by motorbikes, on the area of Athens. Work included analysis of the results and monthly reports conduction.
